

ODP 0-1249  
18 September 1980

MEMORANDUM FOR: Deputy Director for Administration

FROM: Bruce T. Johnson  
Director of Data Processing

SUBJECT: ODP Report for Week Ending 17 September 1980

SAFE

The first prototype crypto key generator for the SAFE system was delivered to [REDACTED] on 12 September for interface testing with the wideband communications system. [REDACTED]

Color Graphics Demonstration

On 15 September Messrs. [REDACTED] of A Division gave a demonstration of the CAMS Color Graphics Testbed System to Messrs. [REDACTED] of the ODA, [REDACTED] of the DDS&T, Ms. [REDACTED]

ADP Procurements

The D/ODP concurred on an [REDACTED] request to initiate with [REDACTED] the Phase I portion of the MIDAS Program (Media and Intelligence Dissemination Automated System). An RFP for MIDAS was released in May 1980 and [REDACTED] was selected for award.

The D/ODP also concurred on an NPIC request for a six-month extension of an on-going [REDACTED] contract for Operational Support Planning associated with the NPIC Data System (XDS). This extension is an interim measure until a replacement contractor can be obtained through a competitive procurement. Award is scheduled for February 1981. [REDACTED]

Excess Computer Equipment

Headquarters Regulation [REDACTED] assigns ODP the responsibility of reassigning within the Agency ADF equipment excess to an office's needs. In this regard, the D/ODP concurred on a recommendation to reassign two excess ODP PDP 11/34 minicomputers, one to the Office of Security, Interagency Training Center, and one to the DDO, Information Management Staff. The DDO minicomputer will be returned to ODP for further reassignment by March 1981, when a replacement, currently on order, becomes available. In addition, ODP was assigned certain

STATINTL excess PDP peripheral equipment and an excess ORD PDP 11/20 was reassigned to OSO. [REDACTED]

COINS Long Range Plan

MS/ODP Reviewed PART III of the Community On-line Intelligence System (COINS) Long Range Plan. Part III is the Technical Support Plan for FY-80 through FY-86 and covers resource requirements. The COINS Project Management Office (PMO) plans to spend over \$25 million and 230 staff-years during the next six years on operations, procurement, and RDT&E. This ambitious program deserves close scrutiny by ODP for future Intelligence Community applications. It also is of great interest as a testbed for network technology.

STATINTL  
STATINTL Parts I and II of the plan, dealing with network operations and architecture respectively, are available from the CIA COINS Subsystem Manager, [REDACTED] ext. 7431. Part III is available from the ODP front office, ext. 4011. [REDACTED]
